TWO NEW PLANTS FOR MANCHESTER

Business Men's Association and Council Offer Inducements.

The Bazaar a Success-Local Politica

Manchester Bureau, Richmond Times, 1 No. 1102 Hull Street.)
Committees from the City Council and
the Business Men's Association last night considered and discussed in joint session the question of how to properly present to the business world the inducements which Manchester has to offer to new manufacturing enterprises. In connection with this movement it was stated that within the next two weeks definite agreements will be signed which will bring two large manufacturing. large manufacturing concerns to Manchester

DEATH OF MR. M'CANN. Mr. Joseph R. McCann, a well known resident of Manchester, died last night after an illness of several months. While the news of his death is not a surprise. t is nevertheless a shock to the city, he having lived here for a number of years and been held in the highest esteem by those who knew him. Mr. McCann was taken worse several days ago and all hope of his recovery was given up. The end came last night at 9:45 o'clock. He had been married three times. He is survived by his wife and four small children. The arrangements for the funeral have not yet been completed. STOLE A COAT.

A bold robbery was reported on Hull Street last night. A negro going into the store of Mr. Sam Myers, on Hull between Thirteenth and Fourteenth, asked to see a coat. One of the best in the store was shown him, and he tried it on. it fit him very nicely. Walking near the door, he suddenly made a dash and went down the street at a great rate. Before any one could get out of the store the negro had gotten such a start that he soon left his pursuers, who lost the trail

A LEGAL POINT. A LEGAL POINT.

Does the redistricting of the words of Manchester necessarily affect the boundaries of the school districts? is a question of much interest to members of the tion of much interest to members of the Council and the School Board. Before the change of the boundaries of the wards, when the new charter came into effect, the boundaries of the four school effect, the boundaries of the four school districts conformed to those of the four wards. The change in the wards has placed members of the School Board who were elected by Councilmen from one ward to be residents of other wards. As a result, where there are three men form each ward in the School Board by reason of the change in ward boundaries and not in school districts sow wards. and not in school districts, some wards will have two representatives while others

Judge Clopton, City Attorney, holds that The school districts are not changed by the changing of the wards. Messrs. J. T. Abbott and W. B. Bradley, members of the Council, claim that under the law the boundaries of the school districts shall conform to the boundaries of the wards. If Judge Clopton is sus-tained, there will be no changes in the School Board. In the event that the members of the Council decide against him, there will be a great change. Mr. J. J. Bailey, the present chairman of the hourd, was appointed from the Fourth Ward. Since the changing of the wards he finds himself in the Second. This leaves, speaking of the wards, and not school districts, only two representatives

in the board from the Fourth.

RICHMOND AND PETERSBURG By a vote of four to the members left him out.

The precedent which would be set

The precedent which would be set seems to be the chief objection. Mr. Nunnally has many friends in the ward, and even the three candidates for the assembly, who without the appearance in the field of Mr. Nunnally would have no opposition, want the committee to allow his name to be placed on the list. What action they will take is not at this time

Audiences at the Academy. Two large audiences greeted Joseph Jefferson at the Academy yesterday, and ferson at the Academy yesterday, and heartily enjoyed his matchless impersonations of Rip Van Winkle and Bob Acres. There is no man on the American stage who is better loved than Jeseph Jefferson, and his acting is certainly well-nign perfect. It was really marvelous to see how much earnestness and spontaniety he puts into characters that he has played for over a generation. His comedy possesses a flavor of its own and is always delightful.

APPROPRIATION WILL COME

This is Opinion of Those Who Have Been With the Washingtonians. Mr. Branch's Address. Return in Evening.

As a result of the visit of the House Committee on Grounds and Buildings to Richmond on yesterday to investigate the needs of the city for a new Federal building, the Committee of the Chamber of Commerce feel assured that its report to Congress will be a recommenda-tion for the desired appropriation of 11,000,000 for this purpose.

The gentiemen upon this mission to Richmond spent yesterday inspecting the present postoffice building, in its depart-

present postoffice building, in its departments, and visiting other places of interest in and about the city. They were shown through the postoffice by Mr. Knight, who pointed out to them the needs in this quarter for additional space, and showed how the business in many respects had outgrown the office. There is no doubt that these things impressed the committee and from statements made by some members, they fully recognize the need of relief in this department. INSPECT FEDERAL COURTS.

From the postoffice the quarters of the Federal Courts were visited, and hero Judge Waddill became a member of the party to explain the needs in this de-

partment. The matter of selecting a site for the The matter or selecting a site for the proposed building was not discussed, save in a very general way. It is certain, however, that the government will not rebuild on the present site. In connection with the change of location, Broad Street property in the neighborhod of the City Hall is considered, as is Main Street, be-tween Ninth and Eleventh Streets, but further than to agcertain the value of real estate in these districts, the matter has not been gone into.

During the afternoon the party was driven over the city to points of interest, returning for lunch at the Common wealth Club at 2:30, where they met a number of the business men of the city. After lunch Mr. John P. Branch spake to the committee at some length upon the needs of the city for more dious quarters for postoffice and Federal
